international certification
accreditation council

About the World Safety Organization

The WSO was founded in Manila, the Republic of the Philippines, in 1975 as a result of a gathering of over 1,000 representatives of Safety Professionals from all continents at the first World Safety and Accident Prevention Congress.

Headquartered in Warrensburg, Missouri USA, since 1987, the World Safety Organization (WSO) is a global community of people dedicated to "Making Safety a Way of Life ... Worldwide" since 1975. In Consultative Status with the United Nations and having National Offices and Chapters in over 20 countries, WSO has the reputation and reach to bring together diverse safety professionals and practitioners who are transforming the world's corporations, organizations, and communities to meet tomorrow's critical challenges.

The WSO's purpose is to internationalize all safety fields, including occupational and environmental safety and health, accident prevention, etc., and to disseminate throughout the world the practices, skills, arts, and technologies of the safety and accident prevention fields. With worldwide membership in the thousands, the WSO is undergoing a strong growth period. With individual referrals and recommendations from WSO members, there is continuous growth in membership and the pool of professionals seeking the WSO certifications.

In 2017 WSO's Certification Program was accredited in compliance with ISO/IEC 17024:2012, an international standard which sets out criteria for an organization's certification program for individual persons, by the International Certification Accreditation Council (ICAC). Learn more about WSO at www.worldsafety.org.

NOTE: The graphics featured in this edition of the WSO Consultants Directory are safety posters from the 1940s, 1950s, 1960s, and 1970s.

MOST USED ABBREVIATIONS

Agts	Agents
Agric	Agricultural
Am & Amer	American, America
Assoc	Associates, Associations
Atty	Attorney
Bldg	Building
Co	County, Company
Com	Committee, Communication
Comp	Compliance, Compensation
