PLOT 15, PRIMARY SCHOOL ROAD, IGBOLOGUN, TIN CAN ISLAND, APAPA - LAGOS STATE, NIGERIA.
CONTACT NO: +2347064761205, EMAIL ADDRESS: henrybassey1988@gmail.com,

PROFESSIONAL SUMMARY:

I am a certified HSE-MS professional with over 6 years of field experience and knowledge in the Oil and Gas construction, fabrication and shipyard industries, I am technically oriented and coordinated rigging, lifting and logistics operations. I am familiar with the applicable standards and specifications to ensure legislative compliance as specified in PUWER, LOLER, HASAWA and other relevant regulations as applied to the industry. I specialized in risk assessment, accident/incident investigation, training program implementation, gathering and maintaining HSE statistics, workplace inspection and audit, hazard identification and controls and all safe systems of work used for complex and critical lifting, logistics, installation and integration activities at Nigerdock with proven record. I am accustomed to multi-tasking and coordinating resources effectively to achieve targets within stringent deadlines.

WORK HISTORY:

COMPANY: NIGERDOCK NIGERIA PLC, SIFZ, LAGOS STATE, NIGERIA.

PROJECT: EGINA FPSO, OFD3 & OFD5 TOPSIDES AND CHEVRON TOPSIDE

POSITION: HSE RIGGING ADVISOR.

(2015 till date)

KEY ROLE:

- Coordinate and supervises all critical and complex lift/ transportation operations on various projects in compliance with company policies / safe system of work.
- Developed technical risk assessment used for all critical lift, transportation of fabricated structures with SPMT and installation of structural members on fixed production platform.
- Liaise with site lifting specialist to inspect and confirm the integrity of all lifting ancillary and certification status in respect to Nigerdock lifting and rigging procedure.
- Organised weekly HSE meeting with lifting and rigging team and advised on safe lifting practices and recommendations in accordance with industry requirements.

- Organised joint HSE risk assessment review meeting with company's subject matter expert and clients for critical/ complex lift, transportation and installation operations.
- Investigation of accident, incident, near misses and ensure corrective action plan are timely implemented to forestall future recurrence and provide objective evidence to the HSEQ depart.
- Participate in OHSAS and QMS internal audit of the company's management system to identify weaknesses in the systems and proposed preventive action plan.
- Interpret lifting plan drawing and ensure implementation of required SSOW on site.

PROJECTS:

I have excelled in the execution of the technical risk assessment and job safety analysis for the integration, installation, and lifting / transportation activities for the under listed company who are major players in the Oil and Gas industry with millions man hours recorded without loss time injury.

- Egina FPSO Project - Total E&P (Client), Samsung Heavy Industry (Contractor). 2014 – 2017
- OFON Phase 2 Topsides OFD3 and OFD5 Project – Total E&P (Client). 2014 – 2016
- AGBAMI Phase 3 Mobilization Project – Chevron (Client), MPL (Contractor). 2016
- ERHA North Phase 2 Project- Exxon Mobile (Client), Subsea7 (Contractor). 2014 – 2015
- DSO Meren GGCP and Sonam NNPC NWP Project – Chevron (Client), HHI (Contractor). 2012 - 2015

ACCOMPLISHMENTS:

- Developed incident tracking system and review HSE performance quarterly with the department team which has contributed to significant reduction in HSEQ risk profile associated with lifting and transportation operation.
- Organize HSE training to familiarized workforce with relevant HSE management system which increases personnel perception of risk and improved safe working practices in the workplace thus prevent loss time incident (LTI).
- Educate the lifting crew on safe rigging and lifting practice which has contributed to 75% substantial reduction in accident and incident frequency in the workplace.
- Introduced formal handover system to create efficient communication medium between the outgoing and incoming shift and to also highlight areas of concern while undertaking critical and complex workplace activity, site condition, plant and equipment state and other relevant information.
- Recommended an internal incentive system to motivate workforce in demonstrating conformity with health and safety requirements in the workplace and also enhances production efficiency.
- Conduct workplace HSE inspection and audit to identify hazard and ensure implementation of effective and relevant control to eliminate / reduce risk to as low as reasonably practicable (ALARP).
