## SAFETY TIPS FOR WORKING IN THE HEAT

Written By: Blair Arndt, Society Insurance Risk Control Representative, <https://societyinsurance.com/>

*As summer approaches and the days get longer, the dangers of working outside during hot weather also increases. Knowing how to work safely in hot weather can help prevent heat stress injuries and heat stroke. According to the National Institute for Occupational Safety and Health (NIOSH), heat stroke is the most serious heat-related disorder and occurs when the body can no longer control its temperature. The body temperature can rise to 106 degrees Fahrenheit or higher within 10 to 15 minutes and heat stroke can cause death or permanent disability if emergency treatment is not provided. Other heat-related disorders include heat exhaustion, heat cramps and heat rash.*

Welcome to the World Safety Organization May Newsletter. As always you can expect to find updates on ongoing projects and introduction of new projects. Should you have questions about any of this material we encourage you to call or email the WMC in Warrensburg, Missouri. The WMC staff is always anxious to help regardless the question.

The lead item this month is the Las Vegas Symposium that will be held the 2-5 of October. We expect to have a full and interesting program and encourage you to make your reservation to attend. We have had to cancel the last couple of Symposiums due to the Covid Virus. We do not expect that to be a problem this year and we encourage you to get your reservation in early as accommodations may become limited.

As part of the Symposium format, we are asking for paper proposals to be submitted. This is a good forum to present your work and/or research to a group of like-minded professionals. As professionals we need to be seen and heard and the World Safety Organization international Symposium is a great place for this to happen. We look forward to seeing and hearing your presentations.

The WMC is also asking members to submit your nominations for various awards. These awards are listed in this newsletter. I'm sure some deserving associate will appreciate the consideration of your nomination of them or their company for one of the available awards. As professionals we all like to receive recognition for our achievements. Please help your associates where warranted.

We are moving into the summer season, and this is also an unsafe season as we turn to outside activities that include camping and boating. Please use caution and care as we proceed through this season. We want everyone to be happy and well!

Thank you for being a member and as always let us know how can improve your membership experience.

## Heat Illness: Symptoms and Prevention

### Heat-Related Disorders

Heat stroke occurs when the body no longer sweats, and body temperature reaches dangerous levels.

Symptoms of heat stroke include:

- Dry, hot reddish skin and lack of sweating
- High body temperature
- Strong, rapid pulse
- Chills
- Confusion
- Slurred speech

**Heat exhaustion is the body's response to the loss of water and salt, typically through sweating. Symptoms of heat exhaustion include:**

- Excessive sweating
- Weakness or fatigue
- Dizziness and/or confusion
- Clammy skin
- Muscle cramps
- Flushed complexion

Heat cramps are painful cramps in the body's muscles due to low salt levels and are typically caused by excessive sweating. Symptoms of heat cramps include:

- Muscle pain usually in the abdomen, arm or legs.
- Muscle spasms usually in the abdomen, arm or legs.

Heat Rash is an irritation of the skin caused by excessive sweating. Symptoms of heat rash include:

- Red cluster of pimples or small blisters
- Usually on neck and upper chest, groin area, under the breasts, and in elbow creases.

## Ten Hot Weather Safety Tips:

- 1.Stay hydrated.** Drink plenty of fluids; drink about 16 ounces before starting and 5 to 7 ounces every 15 or 20 minutes.
- 2.Avoid dehydrating liquids.** Alcohol, coffee, tea and caffeinated soft drinks can hurt more than help.
- 3.Wear protective clothing.** Lightweight, light-colored and loose-fitting clothing helps protect against heat. Change clothing if it gets completely saturated.
- 4.Pace yourself.** Slow down and work at an even pace. Know your own limits and ability to work safely in heat.
- 5.Schedule frequent breaks.** Take time for rest periods and water breaks in a shaded or air-conditioned area.
- 6.Use a damp rag.** Wipe your face or put it around your neck.
- 7.Avoid getting sunburn.** Use sunscreen and wear a hat if working outside.
- 8.Be alert to signs of heat-related illness.** Know what to look for and check on other workers that might be at high risk.
- 9.Avoid direct sun.** Find shade or block out the sun if possible.
- 10.Eat smaller meals.** Eat fruits high in fiber and natural juice. Avoid high protein foods.

# WSO Awards Nomination Information

## III. Nomination Procedures:

The awards cycle is from 1 January to 31 December each year. Nominations for a given year are accepted in the WSO by May 15th, following the end of the award cycle. In order to keep things as simple as possible, a single award nomination process is used for all awards. Please read the instruction carefully and you will find that all the potential situations are covered. A letter format will be accepted as long as all the information is provided in the proper order. It is hard to provide too much justification for your nomination. The most frequent problem is having insufficient information to judge the validity of the nomination.

The submission must contain the following information in the order shown below.

A. Name of the award for which the nomination is being submitted.

B. Name of the individual, group, committee, organization, or firm being nominated. 1. If nominating an individual: provide name, home address, and phone number and the employer's work address, phone, and email address.

2. If nominating a group or committee: provide the name of the group or committee and the organization with which it is affiliated and the name, address, telephone number, and email address, of the chairperson.

3. If nominating an organization or firm: provide the name, address, and telephone of the firm and the name, address, phone number, and email address if applicable, of the chief executive officer, president, or owner.

C. Provide the name, address, telephone, and email address, of the person making the nomination.

D. If the nominee is an individual, name the employer and provide a brief description of the nominee's current position. If the nominee is a group, provide a description of the purpose of the group and the primary organization it supports.

E. Provide a description of the key outstanding accomplishments of the nominee. It must be clear exactly how the nominee meets the criteria for the award nominated.

1. For individuals, provide a summary of the nominee's educational and WSO related professional accomplishments. Enumerate the nominee's contributions to the WSO Organization, safety profession, and his/her employer and community.

2. For groups, committees, organizations, or firms, provide a summary of the nominee's contribution to the advancement of the WSO.

F. Provide the name, address, phone number, and email address if applicable, of three references that can provide comments concerning the nominee's performance. At least one reference must be a WSO organization member. Persons listed as references cannot be related to or employed by the nominee.

G. Provide appropriate supporting documentation to support the nomination. If the nomination is based on published works, provide copies of the document(s).
