Good Afternoon,

As we have done previously, the attached PDF file digests the information that we have shared over the last several weeks about the resources on OSHA's webpage and those of several other agencies and organizations. We have included a list of general COVID-19 resources grouped by agency, including those on the OSHA Emergency Temporary Standard and updated enforcement policies, and sections on reopening workplaces, cloth face coverings and respiratory protection, vaccines, and additional industry-specific COVID-19 resources grouped by industry. As with previous versions, it is intended as a resource and is not comprehensive.

Moving forward we will use our traditional communication methods (e.g., email alerts, QuickTakes, etc.) to share information about new resources and tools from OSHA on COVID-19. We encourage you to share this information as broadly as possible.

Doug Kalinowski

Directorate of Cooperative and State Programs
