Professionalism and Excellence for the Future

Our ever-evolving world demands that we change how we live our lives and how we work, how we learn, how we share new information, and how we comply with new laws, regulations, and demands of the advances in global trade.

Even now, in our 44th year, we are continually reminded of the WSO Objectives: to encourage the effective exchange of information and experiences between/among the members of the WSO; to collaborate with other organizations in conducting activities of mutual concerns, interests and directions; to promote the continuous upgrading of the safety and accident prevention technology and these fields related to loss of lives, property, and environment; to strive for a universal level of professionalism and competence among its members and WSO non-members whose functions are related to safety; to perform such other necessary acts and functions relevant to the WSO overall theme of "Making Safety A Way of Life ... Worldwide."

Symposium Format

The Symposium provides a unique opportunity for the corporate managers and executives, safety, health & environmental professionals, advocates of safety and accident prevention, leaders of safety organizations and WSO members from around the world where the WSO is represented through the WSO International/ National Offices, WSO Chapters, and individual members.

Participation in the Symposium provides a forum for information exchange, networking, professional contact with other members, safety professionals, but most of all, learning about new programs and professional knowledge at sessions, panels and workshops presented during the Symposium.

As a part of the program, Symposium participants are invited to take part in the "WSO Global Safety Roundtable" discussion where the suggestions, comments, resolutions, etc., will be formatted for submission to governmental legislation and Missions of the United Nations (UN), International Labor Organization (ILO), World Health Organization (WHO), and similar rule-making groups on the local, national and international levels.

Symposium Topics

Symposium topics include, but are not limited to: occupational safety and health, environmental safety and health, ergonomics, systems safety management, security, industrial hygiene, hazardous materials management, transportation safety, construction safety, off-the-job safety, recreational safety, safety of the workplace, disaster preparedness, as well as legislative topics on

the national and global scale. CEU's (USA only) will be awarded through the University of Central Missouri in Warrensburg, Missouri, USA (\$20 fee).

International Participants

The Symposiums of the World Safety Organization are always international in scope. WSO members from Europe, Asia, Australia, Africa, and the Americas are frequent participants at the WSO Symposiums and Congresses.

Legislative Representation

Representatives from state and federal agencies are invited to provide updates on newest laws and regulations relevant to the safety industry.

Symposium Venue

Located just minutes away from all of the excitement of the glittering Las Vegas Strip and Las Vegas Convention Center, **Tuscany Suites & Casino** provides a relaxing getaway perfect for business travelers, a long weekend with friends or your next family vacation.
